About the Emerging Markets Forum

Background

The Emerging Markets Forum (EMF) is a not-for-profit initiative that brings together high-level government and corporate leaders from around the world to engage in dialogue on the key economic, financial and social issues facing emerging market countries. The Forum is committed to bridging the gaps across countries through knowledge sharing, policy debate and private-sector engagement to facilitate their common goal of sustainable growth and development.

Many countries are implementing strategies that will lead to faster economic growth and social progress through prudent macroeconomic management, economic liberalization, openness to global markets and support for a dynamic domestic private sector. EMF aims to enable leaders from these countries to engage in a candid exchange of views with their peers in a private and intimate setting. The Forum focuses on substantive discussions of common issues and on reaching actionable solutions and conclusions which can then be disseminated and applied by the participants in their respective countries and organizations.

Major themes of recent meetings include: the impact of the global financial crisis on different groups of emerging market economies, trade and investment, reforming the international monetary system; private sector participation in infrastructure development, climate change, new economic and social challenges revealed by the pandemic, rising inequalities and also the impact of the current geopolitical tensions. The Swiss government provided seed funding for its first meeting, and EMF is now funded by various international institutions and private corporations from both developing and developed nations.

EMF differs from seemingly similar forums as it:

- Has an agenda driven by the priorities of emerging market countries;
- Is predicated on the belief that sustainable development, job creation and poverty alleviation ultimately depend mainly, although not exclusively, on long-term growth and joint efforts of the private and public sectors;
- Draws together participants with first-hand experience: top political leaders, policy formulators and private sector executives;

- Holds meetings small enough (70–90 participants) to permit candor and intense dialogue and yet large enough to incorporate diverse viewpoints;
- Grounds its deliberations in substantive papers written by field experts with first-hand experience in policy formulation; and
- Focuses on practical actions designed to resolve priority issues.

The permanent Co-Chairs of the Global Forum are Suma Chakrabarti, Chair of the Board of Trustees, ODI Global and Former President of the European Bank for Reconstruction and Development (EBRD); Rebeca Grynspan, Secretary-General, United Nations Conference on Trade and Development (UNCTAD); Enrique Garcia, Former President and Chief Executive Officer of the Development Bank of Latin America and the Caribbean (CAF); JIN Liqun, President and Chairman of the Board of Directors, Asian Infrastructure Investment Bank; Masatsugu Asakawa, President of the Asian Development Bank (ADB); Montek Ahluwalia, Former Deputy Chairman of Planning Commission, Government of India; and Hiroshi Watanabe, President of the Institute for International Monetary Affairs.

A Note about Candor, Confidentiality and Communications

In accordance with the decision for an open meeting, sessions and discussions will be opened to registered media for the purposes of news and public affairs. The Forum, however, may impose restrictions as needed to conduct discussions and sessions of a confidential nature. We will do our part to facilitate openness and ask you to do the same.

The Forum retains the rights to its intellectual property.

The structure of this Forum is unique. The design is informal, with much of the time allocated for free-flowing debate. Opening speeches and PowerPoint presentations in the Sessions will be kept brief; Authors will be present to respond to but not dominate the conversation; Session Chairs will be brief in their remarks; and the Chairs and Discussants together will give just enough input to stimulate subsequent debate. The guidelines are simple: minimize prepared remarks, observe the Camdessus Code of “Conversation not Monologue,” and voice your thoughts, your concerns, and your solutions.

We will share the conclusions reached and ideas generated at the Forum with larger audiences. We intend to publish an account of our proceedings on the EMF website in a summarized report. We will also be issuing relevant news release(s) will also be leveraging social and digital media to communicate key messages and highlights of discussions.

To ensure the accuracy of the account, we will make an audio recording of the proceedings. However, the recording will not be used for any other purpose.

Participants' Photo: We will organize a Forum group photograph, which will be distributed to all participants as a memento for personal use. We have also arranged for a photographer to take pictures throughout the Forum. We may use these pictures in future EMF brochures and website.
